

AI acknowledgement coversheet

This coversheet records AI use in this assessment. If the course coordinator requires the official UQ template, copy these rows into that template before submitting.

Your details

Name: Dian Van Rensburg
Student number: 49621879

Assessment details

Course: DECO2300
Assignment: Evaluation 2 (Interactive Prototype Outcome Evaluation 2)

AI use

Yes. AI tools have been used to generate or edit material in this document.
The testing was done by me. The ratings, pass/help marks, and participant notes are mine. The AI draft used those records and the writing style of my Evaluation 1. I am responsible for checking the draft against my notes before I submit.

Details of use

Tool	Use	Prompt	Section	Date
Luna (Grok)	Drafted the evaluation from my own Quest testing results and testing plan, in the structure and voice of my Evaluation 1. I reviewed the ratings, notes, and proposed changes against my records.	Write Evaluation 2 from the prototype 2 testing results. Use Evaluation 1 as the writing style. Mark it against the rubric and make it submission ready.	Full evaluation	08/10/2026
Luna (Grok)	Checked the draft against the task sheet: required sections, 3-page limit, and rubric. No participant quotes were invented. Comments are paraphrased from my notes.	Mark the evaluation and fix anything that would lose marks.	Full evaluation	08/10/2026
