

AI acknowledgement coversheet

This coversheet is designed to help you acknowledge any AI use in your assessment. If your course coordinator provides a course-specific template, please use that instead.

The [AI Student Hub](#) has more information about using [AI in assessment](#).

Your details

Name: Dian Van Rensburg

Student Number: 49621879

Assessment details

Course: DECO2300

Assignment: Interactive Prototype 1

AI use

Select the option that applies:

- ☒ Yes, AI tools have been used to generate or edit material in this assessment
- ☐ No, AI tools have not been used to generate or edit material in this assessment

Details of use

Record the following information when acknowledging the use of AI tools:

- AI tool (e.g. Copilot, ChatGPT, Claude, Gemini)
- description of how you used the tool (e.g. edited, corrected, translated, planned, brainstormed)
- prompt(s) used
- relevant part, section, or page of the assessment
- date.

Complete the table below with this information.

Tool	Use	Prompt(s)	Section	Date
ChatGPT	Helped with programming and implementation of the Unity prototype. I used AI to generate and refine code for the prototype interactionst and helped with supporting scripts. I directed the direction, specs, requirements, reviewed the outputs and modified and decided what to keep	My prompts asked chagGPT to plan out the build for the project and recommend the file structure and help creating and refining some of the scripts. I also prompted for ideas around a better design of the current look that i created, looking for improvements and adjustments.	Unity prototype implementation, interaction scripts and prototype controls	26/08/2026
ChatGPT	Helped identify and fix bugs during prototype development. I used AI	Prompts asked ChatGPT to fix bugs, debug Unity/C#	Unity prototype debugging and bug fixes	26/08/2026

ChatGPT	suggestions to troubleshoot issues, improve reliability, and make the prototype more stable for testing. I checked and controlled the final implementation choices. Helped propose visual layout and scene design ideas for the prototype, including how to present the table workspace, Notion page style, document picker, sketch and 3D object clearly for user testing. I selected and directed the final layout.	behaviour, and improve the reliability of the prototype while I used some of the scripts to help build the project Prompts asked ChatGPT to suggest simple, testable design ideas for a Unity horizontal prototype that communicates a Meta Quest AR Notion workspace.	Prototype layout and scene design	26/08/2026
---------	---	--	--	-------------------

Student control note: AI was used as an assistance tool for code, debugging, implementation support, layout ideas, and scripts that I requested. The project concept, testing goals, review of outputs, and final decisions were controlled by me.
